

GAME END

The game has officially concluded! The remaining townies were able to put an end to Imperialism before it could overtake them, and so they have won!

Winners:

Chaos_Knight – Eliminate all hostiles

TheIrishMan – Eliminate all hostiles

OrangeP47 – Half of the players in the game die before you do

Awards:

OrangeP47 – Honorary Townie

OrangeP47 was a third party inventor role, but even though he only gave inventions to town, he still won. Count me impressed! Not only that, but he assisted in the deaths that his inventions did not cause.

Chaos_Knight – Sleuth on the Hunt

After a bit of bad luck with Voe, CK made all the right calls in first confirming Killing You's role therefore confirming KY's claim, and after in checking Nodlied and discovering he was the cult leader!

TheIrishMan – Scumhunter

That punch came out of left field, I swear. I didn't see it coming, and I'm glad I was home at the time to resolve it all. Kudos for dispatching the last scum and delaying a cult win. If ChopBam had been able to make another nightkill, I don't think town would have stood a chance. Extremely well played for your first game!

Category 5 Hurricane – Town Survivor

Cat5 managed to reveal himself as town on day one and live to the end of the game. I have no idea how this happened. The mafia didn't try to kill him and Nodlied only conquered him near the end of the game. Weird.

ChopBam and Alstar – What's Deception?

I mean no offense with these words, guys, but when I told you two that you would have to be more creative and spread more disinformation than usual, that did not mean to do the exact opposite. Good job on Alstar's part in trying and succeeding in temporarily delaying his death, but unfortunately it wasn't enough. Killing FRAYDO over OrangeP47 or Category 5 Hurricane? Seriously? It was a nice idea trying to get KY lynched, but it was plainly easy to see through.

The roles chosen for this game meant that you'd need to use other player's actions against them, like making players misfire their day shots. Keep this in mind for the future, it's a helpful tactic.

Voe – LOLOLOLOL

Fuck you man. :v
